

CrossPoint

— PROFESSIONAL SERVICES —

WHERE EXPERTISE MEETS EXECUTION.

UEI: W78BREM5NZA1 | CAGE: 24NZ2

COMPANY OVERVIEW

CrossPoint Professional Services provides multi-disciplinary support across educational programs, event planning & logistics, and CAD drafting & field surveys. We help organizations move projects from planning through execution through organized coordination, accurate documentation, and responsive project support. Our team brings experience across education, CAD drafting, field documentation, technical production, and project operations, allowing CrossPoint to support complex initiatives requiring both administrative and technical expertise.

CORE COMPETENCIES

Educational Program Support

Program coordination, curriculum development, instructional materials, training support, scheduling, documentation, and operational support.

Event Planning & Logistics

Conference and meeting coordination, venue and vendor management, registration, attendee logistics, technical production coordination, and on-site execution.

CAD Drafting & Field Surveys

Existing-condition surveys, field measurements, AutoCAD and Revit drafting, permit & construction drawings, floor plans, technical layouts, and as-built documentation.

KEY DIFFERENTIATORS

- **Multidisciplinary Expertise:** Integrated educational, operational, event, drafting, and field-support capabilities through one professional services partner.
- **Experienced Leadership:** Leadership experience spans K-12 through higher education, program operations, CAD drafting, field documentation, technical production, and large-scale events.
- **Execution-Focused:** Strong emphasis on accuracy, organization, communication, responsiveness, and dependable follow-through.
- **Flexible Support:** Ability to support stand-alone projects or complement existing teams with specialized administrative and technical expertise.

CAPABILITY STATEMENT
